- Submit a practice record as often as you wish, however, the **dates on the record must not span more than 8 days** and the record **must be submitted within one week of the last date on the log**. (Exceptions as announced for school holidays, or as determined by director for unusual circumstances.)
- The log will not be accepted without a credible parent signature.
- For honor points, all practice minutes will accumulate throughout the year, including any that are assigned as a class requirement. Large amounts of practice minutes that are not realistic for a middle schooler will be suspect, therefore, no more than 300 minutes per week will be accepted unless discussed and verified in advance with the director. The directors may confirm the legitimacy of any practice minutes turned in at any time by conferencing with the parent who signed the form.
